

F5000 Racers and Friends,

I regret to report that due to a low number of entries for the May 16-17 event at Thunderhill Raceway, the Formula 5000 Drivers Association will not be able to sanction this race. A combination of factors, including cars still being restored for start of season, conflict with other racing events and financial hardship on participants from the economic downturn, seem to have contributed to the low number of entries for this event.

We still encourage those who have already entered and those who want to use this event as an early season warm up to still participate. On behalf of the Formula 5000 Drivers Association, I want to thank CSRG for giving us the opportunity to schedule this event and regret not being able to bring our show to Thunderhill this year.

The Association will now focus its attention to the Mid-Ohio event with SVRA coming in June 25-28 and the July 16-19 event at Road America . Entry forms will be distributed to you shortly.

The withdrawal from the Thunderhill event is a clear example that racing events can only take place if you participate. Please make every effort to join us for the remaining events this year. We are counting on you to have a thriving Formula 5000 group and large grid of cars to race with.

Sebastian (Seb) Coppola
